

Mill Cities Relay

The photos on this page were taken at the final 2000 meeting of the Wednesday Night Church Group a few days after the club captured the Mill Cities Trophy following 17 years of effort and practice in the art of handing off the baton.

The rest of the story regarding the baton hand off involves a timing issue and our beloved Skip Cleaver. (Yes, that's toilet paper.) The other celebrants thought it would be nice to reminisce and reenact with Skip about why he was not there to take the hand-off at the beginning of leg 4. When Skip's teammate arrived, Skip was no where to be found. Minute later Skip appeared from across the street at Dunkin Donuts and was hurriedly adjusting his running apparel which were rumored to have some extra decorations.

They seem to be trying to tell me something
